Challenges Faced by Entitled Solutions

Paperwork Overload in Onboarding Process

Entitled struggled with a pile of paperwork, making it difficult for HR teams to navigate. This not only led to inefficiencies but also increased the chances of errors.

Tracking Employee Leaves & Attendance

Managing and monitoring employee leaves and attendance proved to be a time-consuming challenge. Manual tracking systems were prone to errors and hindered HR's ability to maintain accurate records.

Errors in Payroll Processing

Payroll processing errors not only cost time but also created dissatisfaction among employees. These errors were a source of frustration for both the HR team and employees, affecting the overall morale of the workforce.

Configuring Leaves

Configuring leave policies in a way that was both fair and efficient was a complex task.

Solutions Provided by Zimyo

To address these pressing challenges, Entitled turned to Zimyo, which offered a comprehensive HR solution tailored to their needs. The solutions implemented included:

- ✓ Automated payroll processing to significantly reduce errors and ensured employees received salaries on time.
- ✓ The automated payroll processing system significantly reduced errors and ensured employees received their accurate payments on time.
- ✓ Provided real-time insights into employee attendance by capturing attendance data with attendance tracking system.
- ✓ Implemented customized workflow to automate administrative tasks and streamline the HR processes.
