## About **HILLSON Shoes**

HILLSON Shoes is one of the largest manufacturers and exporters of Industrial Safety Shoes and Gumboots. The organization offers a wide range of work safety shoes to protect industrial workers from airborne matter, chemical, electrical, and biohazards. For an organization with such a reputation and credibility, it is imperative to carry out even the smallest of tasks with great efficiency. However, the organization was facing a series of HR challenges that were hampering their growth. Read more to discover how Zimyo helped Hillson Shoes overcome the challenges.

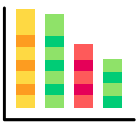

# Challenges Before Implementation

## Payroll Errors

Being an organization with a large employee count, structuring the salary slips and generating payroll reports was a hassle for Hillson. The recurring payroll errors were causing dissatisfaction among employees.

## No Data Insights

The organization was unable to make informed decisions due to unavailability of employee records. The manual process of documenting employee records was a daunting task for the HR team.

## Manual Reporting and Time Tracking

The manual process of reporting employee's working hours on spreadsheets were inefficient and prone to errors.

## Accessing Employee Performance

Accessing each employee's performance was not possible as there were more than 700+ employees spread across different units and shifts. The performance evaluation did not feel transparent.

Zimyo

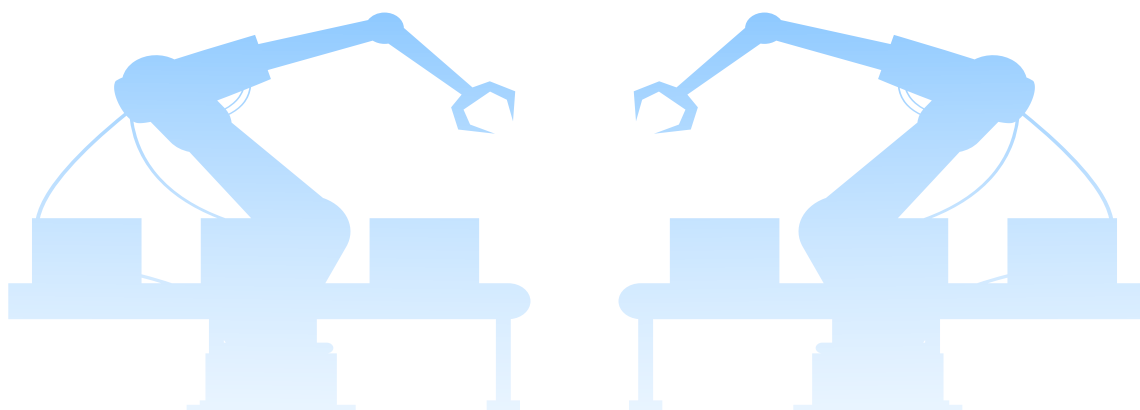

# Value that Zimyo Delivered

- Reduced the time and effort spent on payroll processing by automating the process in 5 simple clicks.
- Streamlined the expense reimbursement process, resulting in faster reimbursement and satisfied employees.
- Implemented centralized platform to maintain and access employee records effortlessly.
- Simplified the process of tracking employee's leave and attendance with attendance management system.

*We were facing several issues with our previous HRMS, but with Zimyo, everything is so easy and simple that it's been almost a year since we are using Zimyo's HRMS and Payroll software and there's nothing I can complain about.*

# Impact Created

Generate Payslips in **5** simple clicks

Eliminate **88%** of manual HR tasks

Reimburse expenses **2x** faster than before

**80%** reduction in payroll costs

Streamlined Attendance management for **1000+** employees

“

*Since day one, Zimyo has provided us with the best experience. After implementing Zimyo's payroll software, we have seen a huge reduction in payroll cost by 80%. Now, our payroll processing has become smooth and efficient. It's the best HRMS and Payroll software that can simplify even complex HR problems. I would recommend it to all the industries out there.*
