Challenges before **Implementation**

Manual Processes

The HR team was burdened with manual processes, relying on registers and paperwork for various functions.

Attendance Tracking

Accurately capturing employee attendance was a significant challenge. The existing biometric system often failed to sync correctly, resulting in errors.

Error-Prone Operations

The manual nature of their processes led to errors, especially in tracking attendance and managing leaves.

Document Management

The company faced challenges in managing loads of paperwork related to managing employee documents and data.

Our Tailored Solutions

- ✓ Automated the attendance tracking, eliminating the challenges faced with biometric system.
- ✓ Streamlined the onboarding and offboarding process, improving productivity and enhancing the employee experience.
- ✓ Replaced the manual paperwork with a digital document management system, reducing the administrative burden.
- ✓ Reduced the time spent on salary computation and compliance management, ensuring accuracy and adherence to regulations.

Impact Created

90% cutdown on
paperwork

80% accuracy achieved
in leave & attendance tracking

90% of HR processes are
streamlined

70% reduction in payroll
processing time

My experience with Zimyo has been very good. The system has empowered our HR team to streamline every aspect of our day-to-day activities, freeing us from the burdens of manual processes and paperwork. The automated attendance tracking has been a game-changer, eliminating the challenges we faced with tracking employee's attendance. Zimyo's solution not only enhanced productivity but also significantly improved the overall employee experience through streamlined onboarding and offboarding processes.
